ABOUT

I am a B.sc Chemistry graduate with a passion in acting and looking forward to make a career in acting. And also completed a photography course in my college time.

EDUCATION

Sri Vidhya Arts and Science College, Virudhunagar

2022 – 2025

B.Sc, Chemistry — 70%

Government Model Higher Sec School

2021 – 2022

HSC, Second Group — 60%

EXPERIENCE

Internship

2025

Naan Mudhalvan

PROJECTS

Dyeing Process in the Chemical Industry

Dyeing Techniques

The dyeing process in the chemical industry is the method of applying color to textile materials such as fibers, yarns, fabrics, or garments using chemical dyes and auxiliaries. The process involves preparing the material, selecting an appropriate dye based on the fiber type, and using controlled conditions of temperature, pH, and time to ensure uniform and durable coloration. Various chemicals, including salts, alkalis, acids, and fixing agents, are used to improve dye absorption, color fastne...

SKILLS

Chemical Process Techniques: Dyeing Process, Organic Chemistry, Polymer Engineering, Chemical pigmentation Techniques

CERTIFICATIONS

Professional Photography Course (2025)
